 Registered Merchant Service Provider of HSBC Bank, USA
 National Association, Buffalo NY

What merchants are saying ...

“Mercury is better than anything I’ve ever seen in my career! It’s so incredible—you swipe the card and the transaction is done.”

Dave Ostrom, Latitude

“The ease of processing credit cards quickly has made a significant difference in how our business operates. We can process more transactions per hour, customer wait times for bills have decreased, split tenders and tip adjustments are now a piece of cake for our wait staff...all equaling up to happier customers and a great solution for our restaurants.”

Jeff Anon CEO, Berryhill Baja Grill

fast, easy and
affordable **payment**
processing

HSBC is our member bank. It is a leading financial services organization with assets of \$85.4 billion.

Global Payments is the sixth largest processor in the nation. Together, we provide your business with fast, reliable processing.

Datacap Systems is our technology partner. Together, we have created an interface that will enable you to easily add E-payments to your business.

MercuryPay

value-added
payment processing

IP processing – 2-second transactions!

Internet protocol (IP) transactions are the fastest way to process credit cards. Faster transactions increase productivity and improve customer satisfaction.

Dial-up processing with enhancements

MercuryPay processes dial-up transactions in 15 to 25 seconds, and provides such IP features as 24/7 technical support and Web reporting.

Signing up with Mercury is easy

Just call us at 800-846-4472, and we'll take your application in five minutes. Once your application is complete, you'll be processing within 24 to 48 hours.

MercuryPay is affordable

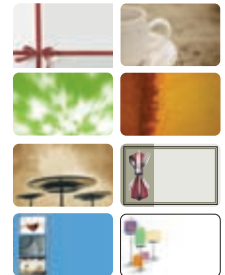

We will match your existing rate or build a custom rate to fit your business. Mercury's superior technology is embedded in your point-of-sale system or terminal, so you pay nothing for our software. You'll appreciate our no-fee application process, and we require no time commitments or cancellation fees.

Three more reasons to choose Mercury Payment Systems

1. FREE gift card processing

Mercury makes it easy for you to start using gift cards. Choose among three programs: Express, to receive pre-designed gift cards; Custom, if you want to design your own cards; or Seasonal, where you'll find several special occasion design options. Whichever one you choose, the processing is always free. We also make it easy to switch existing gift cards with their remaining amounts to Mercury.

2. FREE 24/7 technical support

As one of our processing merchants, you'll get free Class A certified technical support any time you need it.

3. FREE Web reporting

You'll have immediate access to all your transaction data with more than 30 free real-time web reports. Check on transactions at one store or an entire chain. Review real-time results with a full history of transactions and much more.
