Instructions for the IBM SureOne

The SureOne POS terminal from IBM (4614) is available exclusively from ScanSource:

ScanSource/IBM Marketing: 800-944-2439, Tech Support: x402, 8:30AM – 7:00PM Eastern Time

Drivers and setup files are installed from the **Keystroke** CD, or can be downloaded from the **Keystroke** web site at www.KeystrokePOS.com (file name SUREONE.ZIP). This zip file contains the files SUREONE.PRD (Printer Driver), SUREONE.KSD (Customer Display Control File), SUREONE.NVC (40 Column Receipt), 1CHKVD.NVC (Check Validation Receipt), and the text file SUREONE.TXT. Download this file, copy it into your **Keystroke** program directory and unzip it by typing **PKUNZIP SUREONE.ZIP** at the DOS prompt.

SureOne Setup Information

Set Up Ports/SureOne Machine

- Press **F2** while the machine is booting to go into the Setup Program.
- Set:

| | | | |
|--------------------|------------|-----------------|---|
| Printer to address | 3F8 | IRQ 4 | (COM1) |
| 2x20 Display to | 2F8 | IRQ 3 | (COM2) |
| Serial Port A to | 3E8 | Disabled | (or an available IRQ for COM3, eg. IRQ11) |
| Serial Port B to | 2E8 | Disabled | (or an available IRQ for COM4, eg. IRQ12) |
- Save these changes and the machine will reboot.
- Make sure the CONFIG.SYS file contains **FILES=60** (or greater). We also recommend the use of **HIMEM.SYS**, **EMM386.EXE** and **SMARTDRV.EXE**.
- DO NOT put your **Keystroke** program directory in the PATH statement.
- Install **Keystroke**, using the default directory /KEYSTROK.

Set Up Keystroke

From the Configuration Manager, select Setup – Printers, then select Printer Number 3 (Receipt). Change the Driver to SUREONE and the Port to COM1. Leave the DOS Command blank. Press **F10** or select **[OK]** to save.

Select Setup – Cash Drawer and set the Port to COM1 and the Open Code to 7 (rest zeros). Press **F10** or select **[OK]** to save.

If running a Customer Pole Display, select Setup – Customer Display. Set the Driver to SUREONE and the Port to COM2. Press **F10** or select **[OK]** to save.

*NOTE: If you want to change any output to the display, press **F3** with SUREONE highlighted on the list of drivers. This takes you to the Customer Display Control File. Press **F1** for help. If you make any changes be sure to save the file with a new, unique name so that it is not overwritten when you install new disks.*

Select Tables – Print Buttons, then highlight Transaction Manager 1. Press enter on Form File and select SUREONE.NVC from the list. Move down to the Printer field and confirm that Number 3 is selected. Press **F10** or select **[OK]** to save. You may use either Transaction Manager 3 or 4 to do check validation by setting the Button up to use the form file S1CHKVD.NVC.
